service to Sweetwater County!*

## About Us

The Memorial Hospital Foundation is a non-profit 501(c)(3) charitable organization established in 2006 for the purpose of securing financial resources for the advancement and assistance of the development, growth and operation of Memorial Hospital of Sweetwater County. The Memorial Hospital Foundation strives to help enhance the service and treatment of patients through raising funds for state-of-the-art equipment, supporting current and future programs and the improvement of Memorial Hospital of Sweetwater County facilities.

Private support from donors is needed in order for Memorial Hospital to continue improving the facilities and providing top quality services with leading-edge equipment. When you give, be assured that your gift will be used wisely and will serve as a reflection of your generosity and concern for others.

The healing qualities and therapeutic role of nature have been valued for centuries and play a key role in medicine today. A Healing Garden is a natural space designed in a healing setting that creates a calmness that helps to make people feel better. Studies have found that healing or restorative gardens in a hospital setting can reduce the need for pain medication, reduce the length of hospital stays and improve the attitudes and perceptions among patients, guests and employees. The goal of a healing garden is to make people feel safe, less stressed, more comfortable and even invigorated. Healing Gardens nurture the spirit while patients receive treatment. Nature heals the heart and soul things that doctors cannot treat. That is what the Healing Garden is all about.

With this in mind, the Memorial Hospital Foundation established the Dr. William V. Pryich Healing Garden located on the hospital campus. The Healing Garden is a tribute to Dr. Pryich and all physicians and healthcare staff who have dedicated their life's work to the art of healing and caring.

In addition to the aesthetic enhancements, the healing garden brings are a number of therapeutic benefits to the hospital. First and most importantly, patients facing a critical illness, recovering from surgery or waiting for test results have access to a calm, restful environment for peace and reflection. The Healing Garden is also useful for families visiting hospitalized loved ones and provides a quiet place for hospital staff to take a break and become refreshed before returning to patient care.

The Memorial Hospital Foundation's Dr. Pryich Healing Garden provides several memorial/tribute opportunities including engraved bricks, trees, plaques and benches.

Engraved pavers and plaques are available throughout the Memorial Hospital Foundation – a place of beauty, tranquility and respite for our patients and their families. Your tribute ensures a timeless way to honor someone you love. For details on memorial giving opportunities in the Dr. Pryich Healing Garden, or any questions, call the **Memorial Hospital Foundation at 352-8234.**
